

Kodiak Sciences Announces Pricing of Upsized Public Offering of Common Stock

December 16, 2025 at 10:55 PM EST

PALO ALTO, Calif., Dec. 16, 2025 /PRNewswire/ -- Kodiak Sciences Inc. (Nasdaq: KOD), a precommercial retina focused biotechnology company committed to researching, developing and commercializing transformative therapeutics, today announced the pricing of an upsized underwritten public offering of 6,956,522 shares of its common stock at a price to the public of \$23.00 per share. The gross proceeds to Kodiak Sciences from the offering are expected to be approximately \$160 million, before deducting the underwriting discounts and commissions and estimated offering expenses payable by Kodiak Sciences. The offering is expected to close on or about December 18, 2025, subject to customary closing conditions. In addition, Kodiak Sciences has granted the underwriters a 30-day option to purchase up to an additional 1,043,478 shares of its common stock at the public offering price, less underwriting discounts and commissions. All of the shares are being sold by Kodiak Sciences.

J.P. Morgan, Jefferies, Evercore ISI and UBS Investment Bank are acting as joint book-running managers for the offering.

The shares described above are being offered by Kodiak Sciences pursuant to a shelf registration statement on Form S-3, including a base prospectus, that was previously filed by Kodiak Sciences with the Securities and Exchange Commission (the "SEC") and that was declared effective by the SEC on June 2, 2023. A preliminary prospectus supplement and accompanying prospectus relating to the offering has been filed with the SEC and is available for free on the SEC's website located at <http://www.sec.gov>. A final prospectus supplement relating to the offering will be filed with the SEC. About Kodiak Sciences Inc.

Kodiak Sciences (Nasdaq: KOD) is a precommercial retina focused biotechnology company committed to researching, developing and commercializing transformative therapeutics. We are focused on bringing new science to the design and manufacture of next generation retinal medicines to prevent and treat the leading causes of blindness globally. Our ABC® Platform uses molecular engineering to merge the fields of protein-based and chemistry-based therapies and has been at the core of Kodiak's discovery engine. We are developing a portfolio of three late-stage clinical programs. Tarcocimab and KSI-501 are being explored in two BLA-facing Phase 3 studies in the retinal vascular diseases. KSI-101 is a bispecific protein being explored in two Phase 3 studies in Macular Edema Secondary to Inflammation (MESI).
